

Alexandria Gazette.

FRIDAY EVENING JULY 13.

COAL OIL JOHNNIE'S FATE.—The body of John W. McNulty, who was known as "Coal Oil Johnnie," was found yesterday morning lying near the railroad track near Aske's lane, Burlington, N. J. The skull was crushed and the body was otherwise mangled. The man was struck by a train, and it is supposed that he died almost instantly. McNulty was a dissipated fellow, and a chum of Barclay Peake, who recently confessed the murder of his sixteen-year-old cousin, Katie Anderson, and was sentenced to the State prison for twenty years. "Coal Oil Johnnie" was known throughout the country as having become suddenly rich by the development of a startling gusher in his little patch of ground in the oil regions of Pennsylvania. He refused to sell out, and demanded a certain per cent. of the cash receipts of the wells. His income amounted to thousands of dollars daily. As the money came to him so it went. He indulged in the wildest extravagancies. Visiting Philadelphia, he soon gathered about him a crowd of parasites, on whom he lavished his millions. While in that city he would hire a carriage for a short drive, and at the end of the trip buy the entire rig, and within an hour present it again to the owner. He bought out a company of minstrels, presented each man with a silk velvet suit, huge diamond breastpin, ring, and massive gold watch and chain. Time went on. "Coal Oil Johnnie's" well stopped producing, leaving him penniless, and he found employment as doorkeeper for the minstrel company he once owned. He sank lower and lower, till he became a veritable tramp.

The capital stock of this company is \$625,000, divided into 625,000 shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location, Music Mountains, A. T.) is as sound a mining enterprise as was ever placed on the market, and its possibilities have never been exceeded. Every share should double in value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise.

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for.

A Wisewell mill, capacity 20 tons per day, with powerful machinery, has been purchased and will be on the ground ready for erection at the mine within the next thirty days.

The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence of the public, and the stock has steadily advanced in selling value. Within the last few days bona fide sales have been made AT PAR.

There is no better stock on the market for a permanent investment. For full information in regard to this Mine apply to the

We have these goods in all sizes and at prices within the reach of all. These goods are superior to anything of the kind on the market. To mention one point in the many of these brands: the air in the refrigerator is not only cold, but perfectly dry. The machinery about the freezer, unlike that of any other make, is entirely protected, thus preventing it from being clogged with ice or from making your fingers. The Cooler is made of the best materials, on scientific principles. We sold a
